

To: All Representatives in The United States Senate and House

The Majority of American People are Opposed to the Outrageous Mandate of The Healthcare Bill. The bill is currently making its way through the Senate. WE would like you to know we have had "ENOUGH".

Congressional Democrats, after all your false wrangling, disgusting open bribery and bullying tactics, are poised to reach agreement on a massive makeover of the American health system. This makeover will bankrupt the insurance companies, raise premiums, and eventually lead to the full nationalization of health care.

That is what your plan is intended to do. By forcing insurance companies to cover pre-existing conditions, the Democrats will destroy all profit margins for the insurers, expecting that the healthy insured will pay for the unhealthy insured. To prevent the healthy insured from opting out of the system, the Democrats levy the threat of fines and jail time. And when the insurers go under, as they surely will, the Democrats will be waiting to jump.

This is what we intend to do to Stop you!

1. We will Encourage doctors to stop accepting both health insurance and Medicare. Your planned system will only work if doctors continue to live off the health insurance and Medicare dole. Good doctors can work outside the system and do better than they would inside it, while providing the quality care Americans deserve. Their profit margins will not be set by the government, and they will be able to charge variable rates for different services and different patients. This is as it should be.
2. We will Tie up the health care legislation in court. Every American who is reasonably healthy should refuse to buy health insurance. When the government fines us we will take them to court on constitutional grounds. Forcing us to buy health insurance violates the Fifth Amendment to the Constitution, which provides that "private property SHALL NOT be taken for public use, without just compensation." In this case, private property is being taken for private use—OUR health care.
3. Most Important of all we INTEND to STOP electing socialists. Do you remember all those Americans you called Astroturf, Nazis, Right-Wing Extremists and Angry Mobs? Guess what? In recent polling between Democrats, Republicans and Tea Party Candidates, have you seen who comes out ahead in the Polls? Tea Party Candidates do! You have not listened to us but you WILL! We will NOT accept an Unconstitutional Mandate that you have no power to force on The American People in the first place. You cannot lock up 300 Million people. We are coming for your jobs and we WILL have them!

An infusion of capitalism and entrepreneurship along with tort reform and stopping Medicare corruption can solve the problem of skyrocketing health care costs. And only adherence to Constitutional principles can ensure that infusion. Any government that

controls health care has total mastery of its population. It is time to exercise a bit of backbone in defense of OUR values—more backbone than WE exercised in electing a bunch of power-hungry liars and thieves to the high office you hold.

STOP using OUR Money to bribe your way through YOUR agenda. How about we STOP sending you our money all together? It is time that We The People cut up your credit cards and your uncontrolled spending on the backs of The American People. NO MORE!!

Regretting we elected you,
