LEGAL=

of or relating to law

deriving authority from or founded on law : DE JURE b : having a formal status derived from law often

without a basis in actual fact : TITULAR <a corporation is a legal but not a real person> c : established by law; especially : STATUTORY

conforming to or permitted by law or established rules

recognized or made effective by a court of law as distinguished from a court of equity

of, relating to, or having the characteristics of the profession of law or of one of its members

created by the constructions of the law <a legal fiction>

I have included the definitions for illegal and legal since it appears you have forgotten what those words mean.

Amnesty for illegal immigrants? What a nice plan to insure more puppets vote for your social utopia and social justice. Have you told these people that once they have amnesty, they will be required to pay all applicable taxes not just locally, but state and federal? Do you think that will make them happy or more inclined to vote for you?

I will be willing to discuss amnesty when and only when our borders are closed and secure! If the borders are not closed and secure, then a flood of people will come into this country, ILLEGALLY because they know they can and there are no consequences for breaking the law!

I was raised to believe we were a country that used the rule of law! I was raised to believe that breaking the law was unacceptable behavior and came with consequences. How does granting amnesty to someone here illegally show that we are a country that believes in the rule of law? These people are breaking the law and must be sent back to their own countries. After the borders are closed and secure, then these people are more than welcome to come back to this country in a legal manner, following our laws and requirements for gaining entry.

If I were to go into another country ILLEGALLY, I would be sent back to my country and/or put in jail for breaking that country's laws. It must be the same in this country. There must be consequences for breaking the rule of law!

We have millions of law abiding citizens and legal immigrants out of work. I understand illegal immigrants will work for much less money per hour, but that employer is now breaking the law! This practice is a form of slavery! It does not empower the illegal immigrants to bring themselves up from poverty. It keeps them in poverty and out of fear of discovery. We need to put our own law abiding citizens and legal immigrants to work. That means illegal immigrants must be sent home to their country.

We as a nation are bleeding much needed money in education, medical care, housing and food to people that are here ILLEGALLY! This money must be used for our citizens and those who are here LEGALLY! To do otherwise is cruel and unusual punishment for those who are doing the right thing.

Encouraging illegal actions do nothing but encourage law abiding people to break the rule of law. What kind of example are you setting for our young people? The example you are setting is that breaking the law is acceptable and has no consequences! Then you wonder why so many people are breaking the law! You are the one that has set the example, therefore, you are the one that must fix the problem and return our Country to one that follows the rule of law.
